

## **CAREX 'Rekohu Sunrise'**

**Origin:** Selected by passionate plantsman from New Zealand.

**Species:** *Carex trifida* ('Rekohu is the native name for Chatham Islands pronounced re-ko-hoo')

**Protection Status:** PPAF.

### **Characteristics:**

The world's first variegated *Carex trifida*! This distinguished New Zealand species has a stout growth habit. The broad mid-green foliage of this new selection is edged with an elegant gold margin & a glaucous bloom on the underside of the foliage which is more pronounced in open situations. '**Rekohu Sunrise**' is a very handsome, trouble free selection that is ideal for mass planting or for pots & container in the modern courtyard garden. 31" x 19".

**Hardiness:** USDA Zones 7 – 11

**Bloom:** Foliage selection.

**Foliage:** Elegant two tone variegated foliage.

**Habit:** Clumping pendulous habit.

**Propagation:** TC. *License required for propagation.*

**Culture:** Fertile well-drained soils. Sun to partial shade.
