

## COTINUS 'Old Fashioned'

Origin: The Netherlands

Species: *coggygria*

Protection Status: US PP# 19,035; COPF Open

### Characteristics:

This beautiful new variety is distinguished from other Cotinus by its startling foliage. The large rounded leaves are blue-grey at maturity providing a nice contrast with the young grey-purple foliage. This persists from early spring until winter when the leaves drop. '**Old Fashioned**' performs well in the landscape as a specimen plant and grows to approximately 6 feet in height and 5 feet in width. The bright yellow-green flowers bloom in spring for just a few days.

Hardiness: USDA Zone 5

Bloom: Yellow-green blossoms last only a few days.

Foliage: Young emerging foliage grayed-purple maturing to blue-green. Leaves are large and rounded.

Habit: Broad and upright.

Propagation: Tissue culture and cuttings.

Culture: Full sun in dry or well-drained soil.
