

New Berberis Introductions

YOUR COMPANY is a proud producer for PlantHaven's newly introduced Shrub Program. This program brings you the tested, colorful, high quality plants you expect from PlantHaven's annuals and perennials but with shrubs. This new series of Berberis from Ing. Michal Andrusiv from the Czech Republic represents the latest breakthroughs in Berberis breeding. Plants have passed the USDA Cereal Rust Disease Trials in MN. These varieties have been added to the Federal Register as approved cultivars.

Berberis 'Admiration'

US PP#16,921

Hardiness: To USDA Zone 5

Foliage: Orange-red with yellow margins

Habit: Broad and upright

Culture: Full sun to light shade in well-drained soil with moderate to regular watering. Pinching back improves branching.

Characteristics: This vibrant berberis is a real eye-catcher suitable for the landscape or as a container plant. 'Admiration' has bright orange-red foliage with yellow margins. The color continues throughout summer.

Key Features

- ✓ Vibrant flaming coral-red foliage with bright golden yellow margin.
- ✓ Unique tight compact habit.
- ✓ Easy care, drought tolerant once established.

Berberis 'Tiny Gold'

US PP#17,084

Hardiness: To USDA Zone 5

Foliage: Bright Yellow

Habit: Broad, low spreading habit

Culture: Full sun to light shade in well-drained soil with moderate to regular watering. Pinching back improves branching.

Characteristics: 'Tiny Gold' maintains its bright sunshine golden color throughout the growing season and keeps a dense compact habit with minimal pruning. To date, no flowers have been observed

Key Features

- ✓ Bright sunshine yellow foliage.
- ✓ Tight compact rounded habit.
- ✓ Easy care, drought tolerant once established.

Berberis 'Golden Rocket'

US PP#18,626

Hardiness: To USDA Zone 5

Foliage: Bright Yellow

Habit: 47" Height x 16" Width

Culture: Full sun to light shade in well-drained soil with moderate to regular watering. Pinching back improves branching.

Characteristics: Upright, columnar habit covers the landscape with colorful foliage. Works well in the landscape in a mass planting, as a specimen plant, or in a container.

Key Features

- ✓ Fresh chartreuse foliage with contrasting coral colored stems.
- ✓ Unique tight columnar habit.
- ✓ Easy care, drought tolerant once established.

Berberis 'Orange Rocket'

US PP#18,411

Hardiness: To USDA Zone 5

Foliage: Rusty Orange

Habit: Broad and upright

Culture: Full sun to light shade in well-drained soil with moderate to regular watering. Pinching back improves branching.

Characteristics: Upright, columnar habit covers the landscape with colorful foliage. Works well in the landscape in a mass planting, as a specimen plant, or in a container.

Key Features

- ✓ Vibrant coral-orange foliage.
- ✓ Unique tight columnar habit.
- ✓ Easy care, drought tolerant once established.
