production prohibited.

About 'Merlot'

'Merlot' has outstanding glossy, small rounded dark purple leaves and has a semi-upright vase shaped growth habit. Mature plants produce abundant bright reddish-purple flowers in spring.

-
- Cultivar:** *Cercis canadensis* (Texensis group).
Patent Status: US PPAF
Culture: Best grown in full sun in well-drained soil. Minimal training and pruning required. More heat and drought tolerant than *C. 'Forest Pansy'*.
Hardiness: USDA Zone 6. (-10°F or -23°C).
Foliage: Deciduous, large rounded glossy dark purple foliage.
Habit: Semi-upright vase shaped habit. 12' x 15'.
Uses: Garden specimen, mixed landscape plantings. The perfect tree for small yards.
Propagation: Unlicensed propagation prohibited.
